

Menke Bros. Stone Slingers

Capabilities

- Can throw stone 60 feet from the back of the truck.
- Approximate capacity of 18—20 ton .
- Conveyor pivots 170° while slinging stone.
- Can unload 20 ton as fast as 10 minutes.
- Radio remote control allows operator to place the stone close to the area where they are working.

Benefits and Uses

- Time savings by only handling stone once eliminating the need for skid steers and excavators.
- Great for placing stone on footer tile, sub-base on slabs, driveways, and parking lots, filling septic systems and bedding for pipelines.
- The variable speeds and range of the conveyor lets you get stone in hard to reach places.
- Best for stone, but can place virtually any material.
